EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Judson Champlin on November 11, 2009.

The application has been amended as follows:

Delete claim 24 and insert new claim 24 as follows:

- 24. A cosmetic hair conditioning product, the product having the form of an emulsified solid composition and comprising at least one hair conditioning ingredient and a principle solidifying ingredient comprising:
- a) from 10% to 50% by weight of the product of cocoa butter; and
 - b) from 6% to 37% by weight of the product of a mixture of cetearyl alcohol and sodium lauryl sulfate.—

Delete claim 25 and insert new claim 25 as follows:

--25. A cosmetic product according to claim 24 further comprising a solidifying ingredient selected from the group consisting of glyceryl stearate, PEG 100 stearate and stearic acid, or mixtures thereof.--

Delete claims 27 and 28

In line 1 of claim 29, delete "28" and insert --24-- therefor

In line 2 of claim 34, delete "substantially"

Delete claim 40 and insert new claim 40 as follows:

--40. A method of fabricating an emulsified solid form cosmetic hair conditioning product according to claim 24, comprising mixing the at least one hair conditioning ingredient and the principle solidifying ingredient, warming the mixture to a temperature within a range of from 45°C to 60°C, allowing the mixture to cool, applying further mixing when the mixture has attained a temperature within a range of from 35°C to 25°C, and allowing the mixture to cool further to provide the emulsified solid form hair conditioning product.—

Delete claim 42 and insert new claim 42 as follows:

--42. A method according to claim 40 wherein the product further comprises water up to 25% by weight of the mixture.--

2. The following is an examiner's statement of reasons for allowance: Applicants have claimed a hair conditioning product according to claim 1 set forth above. Though cocoa butter and cetearyl alcohol are known emollients in the art and sodium lauryl sulfate is a very common surfactant, the prior art does not teach a solid composition comprising a hair conditioner and the specific ternary mixture of solidifiers in the relatively large proportions claimed. Accordingly, the present claims are allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Charles I. Boyer whose telephone number is 571 272 1311. The examiner can normally be reached on M-Th 9:30 to 6:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Harold Pyon can be reached on 571 272 1498. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
